

## COMMITTEES

Chamber membership provides many opportunities for visibility in the marketplace. The more contacts you make, the more exposure your business receives. Fellow Chamber members are a valuable source for referrals. Part of the benefits of your membership investment is the opportunity to work alongside other Chamber members, while offering your input and expertise to the business community. Get involved in the important work of the Chamber and help your business succeed.

I want to join and participate in the following committee:
